BRITISH TAKE John Ginza Tells Harrowing Details of Murder of Plantation **GINCHY AGAIN**

Troops Under General Sir Doug-To South As Far As Fringe of Bois Leuze In Hard Fighting

CIRCLE OF STEEL NOW

flict Where Both Sides Admit years. Battling was Most Desperate

(Associated Press by Federal Wireless) ONDON, September 10, - The French and British armies north French and British armies north toring Bevins of Maui. French have pushed a wedge well to the east of Le Forest, while to the north the British yesterday recaptured Ginchy, and took all of the ground lying to the south as far as the southern tringe of the Bois Leuze.

This advance brings the troops under Sir Douglas Haig to less than a parter of a mile from the fortifications protecting Combles, about which there s now drawn a half-circle of steel Nowhere at that whole front has the fighting been more desperate than that! in this sector yesterday. Germans Hurled From Trenches

It began with a terrible bombardment of the guns, as usual, then at tack followed attack, until the Brit ish intantry had fairly thrown Germans out of their trenches, and had reoccupied all of the town for which there has been so much fighting during the last few days.

Le Bois Leuze has afforded a protection to the flank of the Combles position, which the Allies apparently do not wish to attack by direct assault until they are in a position to pour a heavy fire upon it from all sides. They have therefore concentrated their efforts against the woods, and have taken it although they must have paid a heavy price for the ground.

Fighting Was Desperate French official desputches yesterday declared that the fighting was the 'most desperate character' and the. British accounts say that the loss suftered by the German defenders of timely and the woods was "extremely This was due in targe part to the tremendous fire of the heavy guns, as well as to the hand to hand lighting that followed the advance of

the infantry battalions. East of High Wood the British also reported gains. Here the struggle was severe, for the Germans were in an ex-cellent defensive position, and the at tackers were exposed to the fire of the German anchine guas and heavier ar

British Storm Positions

In spite of this handicap, however the British stormed the positions and that they garned three hundred yards of German trenches and withstood the counter attacks which were launched by The British also launched a number

of attacks northeast of Pozieres, in the neighborhood of Martinpuich, on the road to Bapaume. Here they were even more successful, for the official communiques tell of the capture of 600 yards at German positions there after some exceptionally heavy fighting. South of the Somme the French con

tinued their stendy advance, slowly widening the sniient they are driving into the treeman line and straightening out their own line wherever possible The Paris statement issued by the war office hast night reported a series of minor gains in that sector. French Drive Out Teutons

Verdan fighting continued. Yes terday there were a number of attacks and counter affacks from each side. The French reported that they had repulsed German assaults on their positions, while in the neighborhood of Floury the poilus under General Petain cleared the Germans out of a whole section of trenches, and withstood the counters launched at them immediat ly afterward. Paris officially

reported yesterday that the French have taken 7700 prisoners since Sep-Other sections of the western line reported heavy artillery fire in places but for the most part there was nothing werthy of especial note.

The Italian front in the Trentino was not so quiet vesterday. The Aus trians attacked in force and succeeded in breaking through the first line of the Italian trenches. Rome, in mak ing the announcement, added that country officeles by the Latins had resulted to the recapture of most of

these positions. Farther north and east, in the Mount Fetuna zone, the Italians reported gains in the taking of some minor Austrian positions and the re-I selve et a number of Austrian attacks.

CRIME WAS RESULT

Oriental Shot Victim Off Horse For Revolver

DRAWN AROUND COMBLES killing George O. Cooper of Hann, Plended Not Guilty Maui, yesterday made a full confession then goes on to state that Alatsus of his crime, and admitted that the Hundreds of Miles of Front Is shooting of the "mayor" of Hana was through S. K. Cusaka, Jan me a note Wrested From Teutons in Con- the result of a plot that had been tor preter, plended not guity to the menting his vengeful mind for five Charge.

Ginza, after being under close observation since the time of his arrest. broke down under the strain and to fine of fifty stollars and re-serelieve his mind confessed that he had days' imprisonment in jail, all this fired the fatal shot which sent Cooper into-sternity. The confession was made trial and without his having be ais wriff Clem Crowell and County At- properly found gailts of the charge by

Honolulu authorities believe that the seasesin, when confronted with a rec- following all this. Judge McKny ord of his misdeeds here, which had altered the records of his court in such McDuffie to the Mani authorities, de Akatsuka pleaded pulty eided that it was useless longer to maintain silence.

Money at Bottom of Feud According to the confession made by

the Japanese, Ginza returned from Hawaii to Maui for the express purpose f putting Cooper to death. He was prompted to the act, he says, by a pirit of revenge. The fend that is supposed to have existed between the two men, according to Ginza resulted from dispute about money matters. At that time Ginza was a laborer on the and forgery. The supreme court tonto plantation of which Cooper was the nanager, and when Ginza left the Val ey Island he swore an oath to even studge McKay keep his officing record

the account against Cooper. In order to accomplish his vendetta, Ginza, so he confessed, stele a horse from Haiku on which he made his trip of vengeance. It was this horse and the wild ride that the Japanese made down the railroad track shortly after the crime that are responsible for his ar rest. A brother in-law of the dead man evertook a Japanese who was lashing his horse into a gallop along the rail-road track. At the time he thought little of the matter. But when the body of Cooper was found near the place a search was instituted for a Japanese inswering the description given by the brother in law of the dead man. search resulted in the arrest of Ginza.

Had Murder In Heart Another interesting detail of the con-fession of Ginza, is that he had gone to Hana about a month ago for the sol purpose of killing Cooper. At that time his nerve failed him, he said, an he left without accomplishing his engeful purpose. Ginza's method of taking the life of

'coper had been planned to the last itree. Mounted on the stolen horse he lay in wait for the plantation man ger whom he had observed duily made is way to the plantation along an un requested road. When Cooper came n sight Ginza immediately open fired t him point blank with his revolver it the first shot Cooper fell from hi iorse. In the excitment of the aciinza also fell from his mount. In stantly the two men came to grandand a gram struggle followed for posession of the weapon. The Japanese inally broke away from his victim and with deliberate aim fired several shorwo of which took effect in the back

juffered Long Before Death

Physicians who examined the wounds the murdered man believe that he uffered a long time before death pon end to his pains. Two bullets took effect in the body of Cooper, either at which would have caused his death me of the ladlets passed through his ody at the waist line and the other ust above. The victim had a third yound under his left arm which was only a flesh wound. It is thought that he bullet that inflicted this wound waired first and that the other shots were ired after the man had fallen to the ground.

Ginza is a Japanese who was mised by a Hawaiian family by the name of Nahipon, new residents of the Hann listrict, During Ginza's youth they at one time resided in Wailuku. Ginza mek on the day before the murder and is said to have spent the night with his foster parents

Had Revolver When Arrested When arrested Ginza was armed with a hangmerless tharty-eight-ealther revolver, which the Hann physician. loctor Lichtenfels, says is the size of the wenpon that caused Cooper's death. Ginea was in Bana for a few days month ago and left there to go to lilo, where he has lived at different times. It had been five or six years once he had been in the Hana dis rict before that, it is claimed. Beording to the police. The police state vests. hat he has herved other sentences for attempted burglary and for receiving tolen goods.

ARE THOSE AFFECTING **OUTPOSTS OF LEMBERG**

Austrian Commander Is Driven Back From One Position To Another Until Galician Capital Seems Doomed To Fall, While Victories Also Are Recorded By the Rumanians

(Associated Press By Federal Wireless)

DARIS, September B. Constants and Rumanians are steadily increasing the pressure of the girdle of steel they are tightening about the Central Powers. I verywhere south of the Proper marshes the ierce hammering of the Africa is winning victories. Vacuus and Berlin both sent out admission or tresh defeats in vesterday's official comnuniques-defeats in the -coar of Halicz, now folloring to its fall; decots north of the Transch are a Mps, defeats at the south east border of Rumania, and minor denotes in the battlefields of Macedonia, where e allied armies are awaiting their opportunity to stroke hard and fast t the Bulgarians and thou termian affices. .

AUSTRIANS ARE BEING HEMMED IN

Standing out above the other sections of the long battle front is the duation in the vicinity of Hairz, one of the fortifications upon which he Austrians relied for the protection of the approaches to Lemberg, beir Galician capital. For everal days the Slavs have been thrusting iciously along the Zleta I go and Dieister rivers, forcing the Austrians under General von Bodhmer to give ground, here and there, losing one important position after another, until last night the Austrians reportif the abandonment of the outer forts defending Halicz, and their detruction by high explanaes, so that the Russians should profit as little s possible by their captures

BOTHMER STILL CLINGS TO HALICZ

In the last ten days General von Bothmer has fallen back ten miles rom his Zlota Lipa positions and has taken up his stand along the ine of the Gnila Lipa and the Narayuea. He still clings to the shell hattered city of Halicz, but the Russians have now surrounded him on aree sides, and some reports say that they have taken the railroad staon on the left bank of the river, just across that stream from the

The Slav rippers are closing in upon the town. Reports from Petrorad announced that the Austrians, in abandoning their outer forts, cere hotly pursued by the Russian infantry and cavalry, and that the lay guns were brought into position in time to shell the retreating aass of Teutonic troops, inflicting fremendous loss. The abandoned forts vere occupied by the Russians as soon as the Austrians had left them, and in some instances the Slavs ousted the Teutons at the point of the

WHOLE TEUTON LINE IS MENACED

The Russian advance on the Zlota Lipa and Dneister rivers still urther menaces the whole Teutonic line to the north. In striking at he Austrians under von Bothmer, General Brussilo,, is succeeding in sending back the flank of the Teutonic armies and every mile that flank s forced back adds to the danger of the commands as far north as

In the meantime the fighting at the other Galician and the Volkynian, ronts shows little change. The Germans have attacked hotly to the outh of Stokhod river lines, but according to the despatches from Petrograd, without success, while the attempts at offensive by the Archluke Karl, to the west of Brody, on the Dubno-Lemberg railroad, have dso broken down under the fire of the Russian heavy guns

TURKS FIGHTING IN CARPATHIANS

In the Zlota Lipa and Dueister sectors and in the Carpathian Mounains the Russians are being confronted by large bodies of Turks, sent north to assist the hard-pressed Austrians. Around Halicz the Ottonans have been hadly beaten, according to the despatches from Petrograd, but the accounts of the fighting from Constantinople claim that he Turks took 1000 Russians prisoners, and repulsed a series of at-

In the Carpathians the fighting has gone against the Teuton forces as vell. Berlin, in statements issued last night, admitted that the Austriins had been compelled to retire along a wide front to the north-west of Kapul While the despatches from Petrograd make no claims to that ffect, unlitary observers here declared last night that this means that the Russians are again on the Hungarian plains in large numbers, and save been successful in their operations.

MOUNTAIN BATTLING REPORTED HEAVY

The mountain fighting has been heavy during the last few days and he Russians have been uniformly successful, in spite of the reinforcements the Austrians have received from Constantinople. Last night the flicial reports of both Vienna and Petrograd told of the defeat of the Austrians, and the capture of a number of important heights south of Baranoff, where 500 Austrians were explured, together with a quantity of munitions and other war booty

The main struggle has been for the possession of roads leading down to the plants. Charges and counter-charges of the most desperate character have been reported. The losses of both sides are said to have

RUMANIANS ARE REPORTING GAINS

While their Russians allies to the north have been making sensaional gams the Rumamans likewise reported successes on three fronts. In the Transylvanian region they have taken a number of towns, inluding the important positions at Olah Tophiza. In south-eastern Runama they had delivered a series of tremendons blows against the ferman Bulgar forces, and aided by detachments of Russians they ave driven the Bulgarians out of the town of Bazardjik, as well as ther towns in the Bohrudja district.

North of the Transylvanian Alps the Rumanian advance continued ithout pause. Last night Bucharest reported that the Rumanians had epulse La number of attacks launched by the Austreans. This fighting vas south east of Mehadia, which is north east of Hermannstadt.

Fighting has been resumed in the virinity of Dorran, northeast of alonika, according to despatelles from the tracek city vesterday. A eavy artillers duel took place there, in which the allied guns are said to save had all the best of it, sileneing a battery of Bulgar artillery, which and been shelling the Arljak bridge. The Scells are also reported as eing extremely busy, having taken position near Lake Ostrovo.
